

# Portico Audit Interface

PORTICO

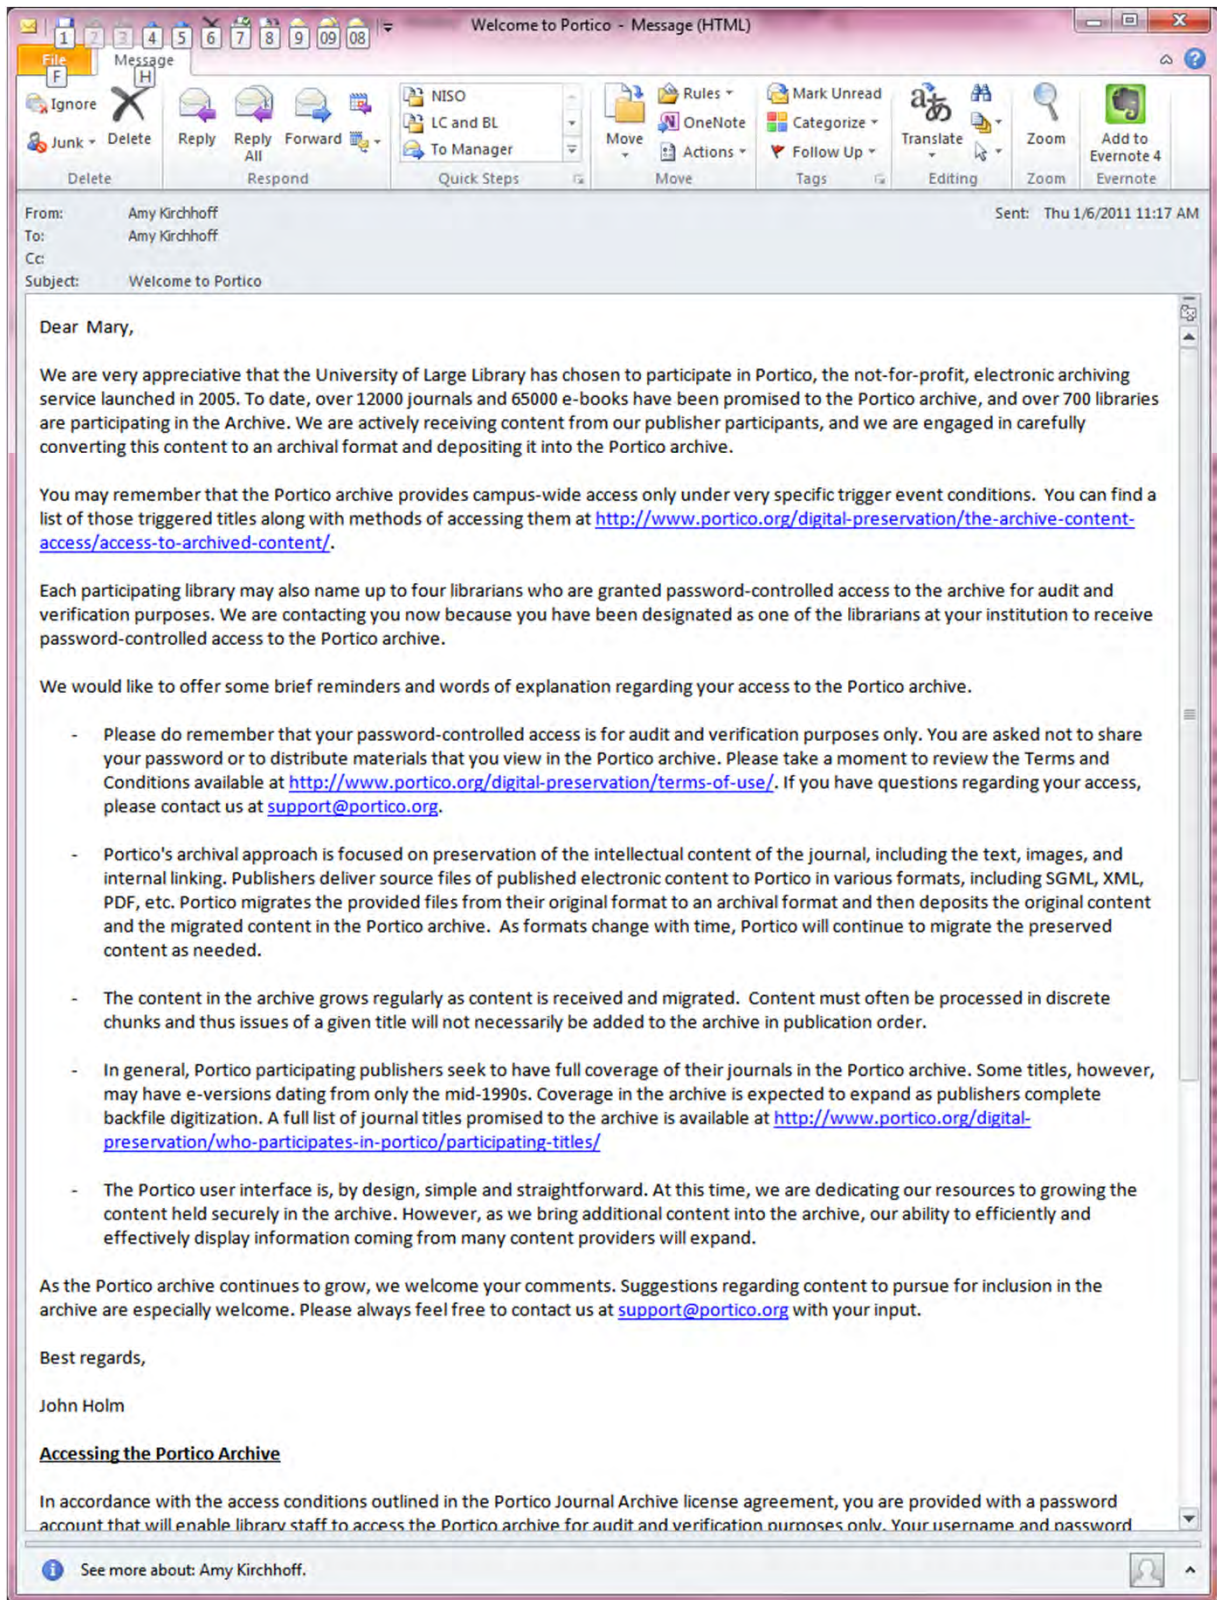

PORTICO

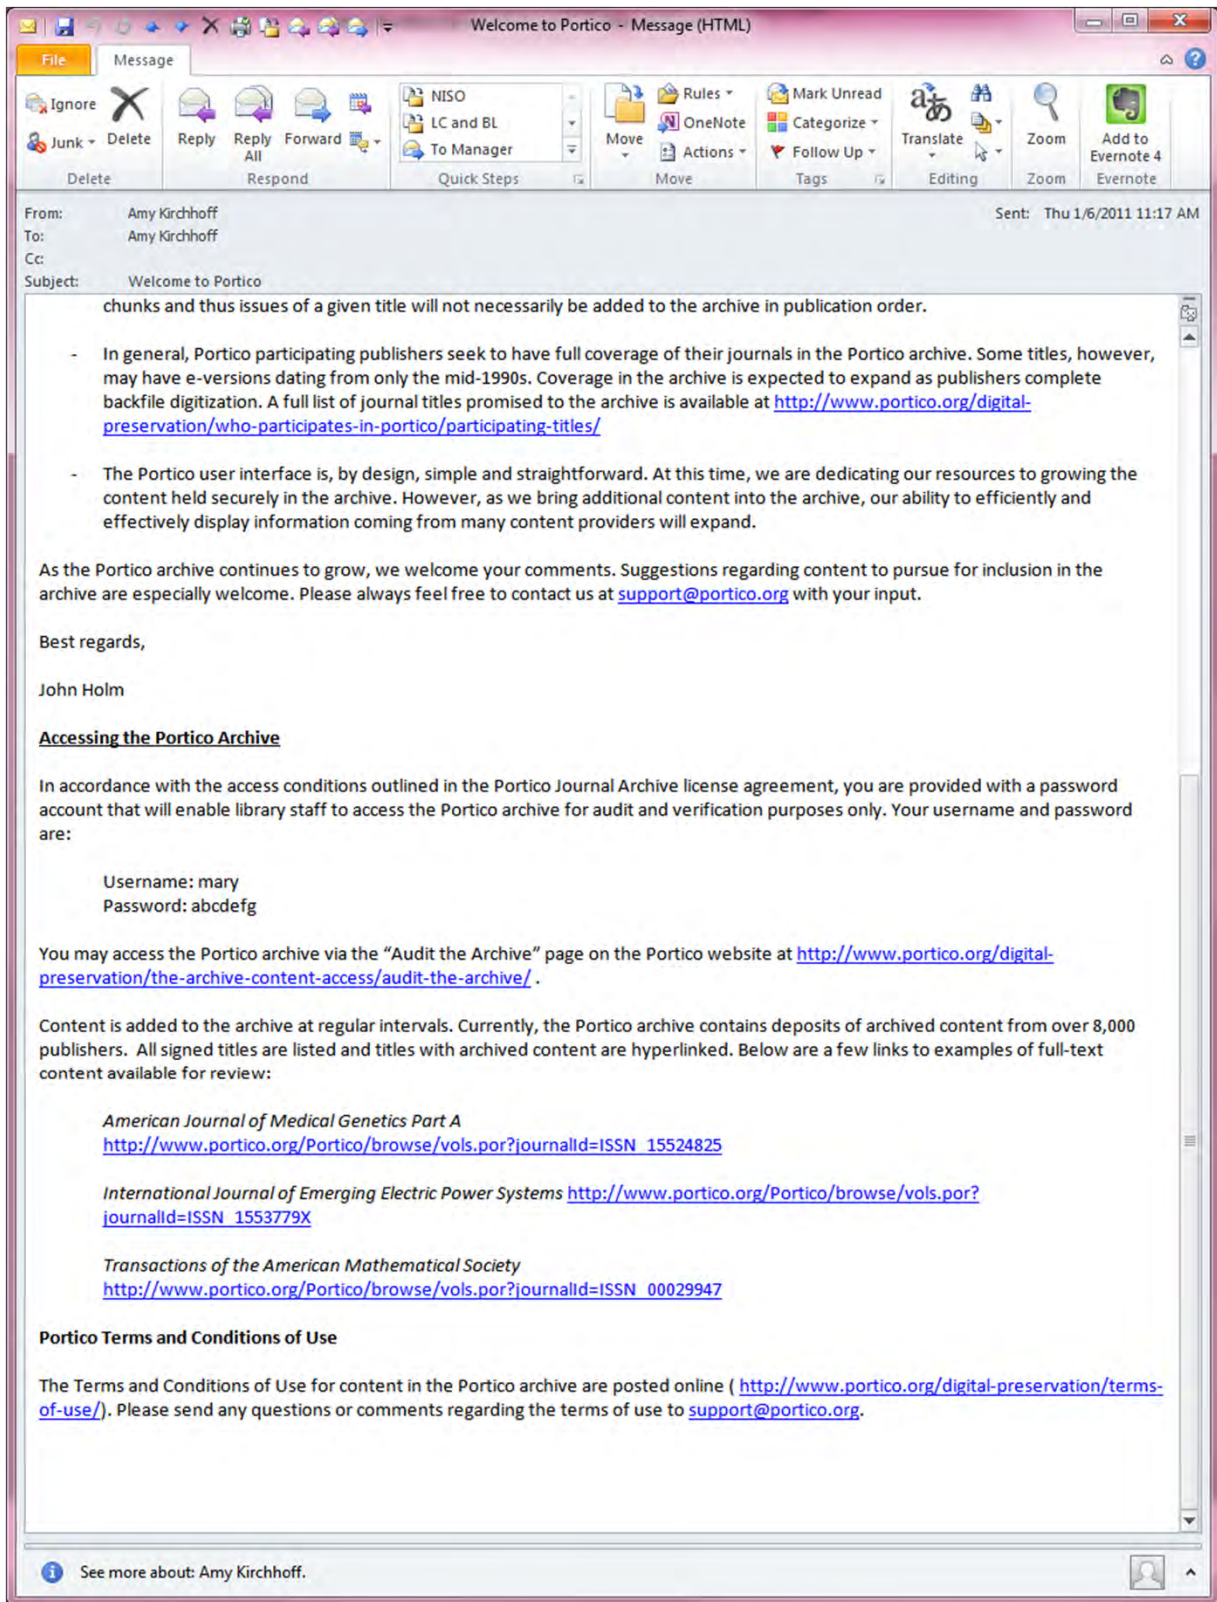

# Mary

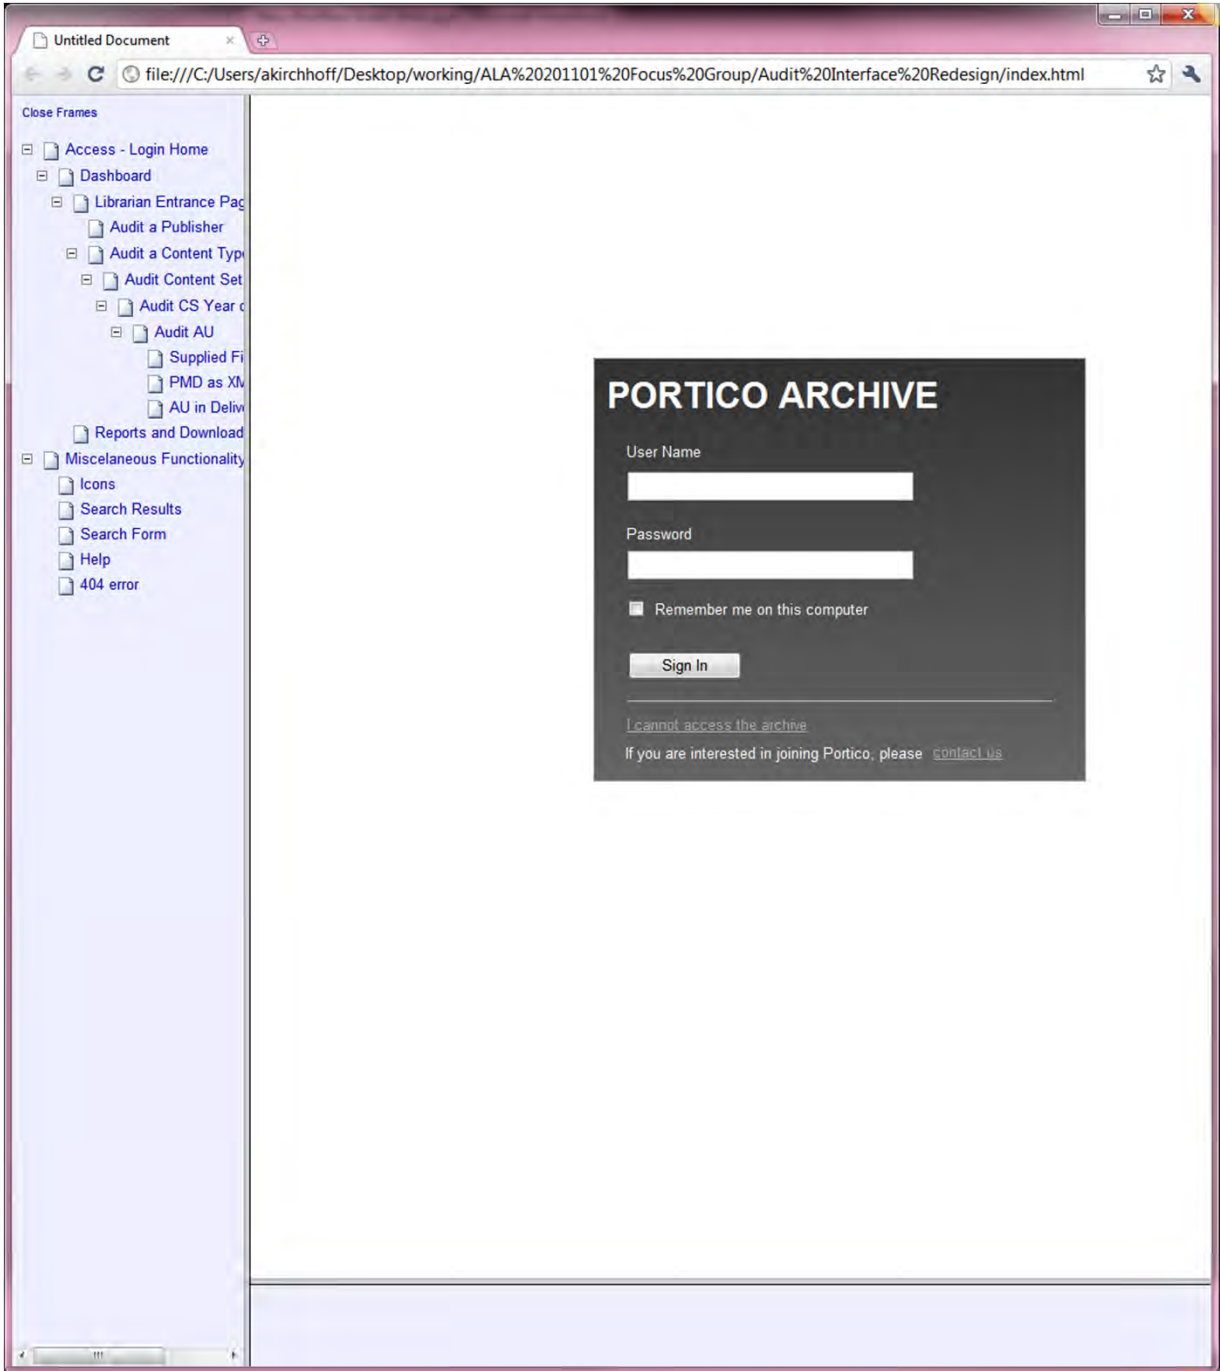

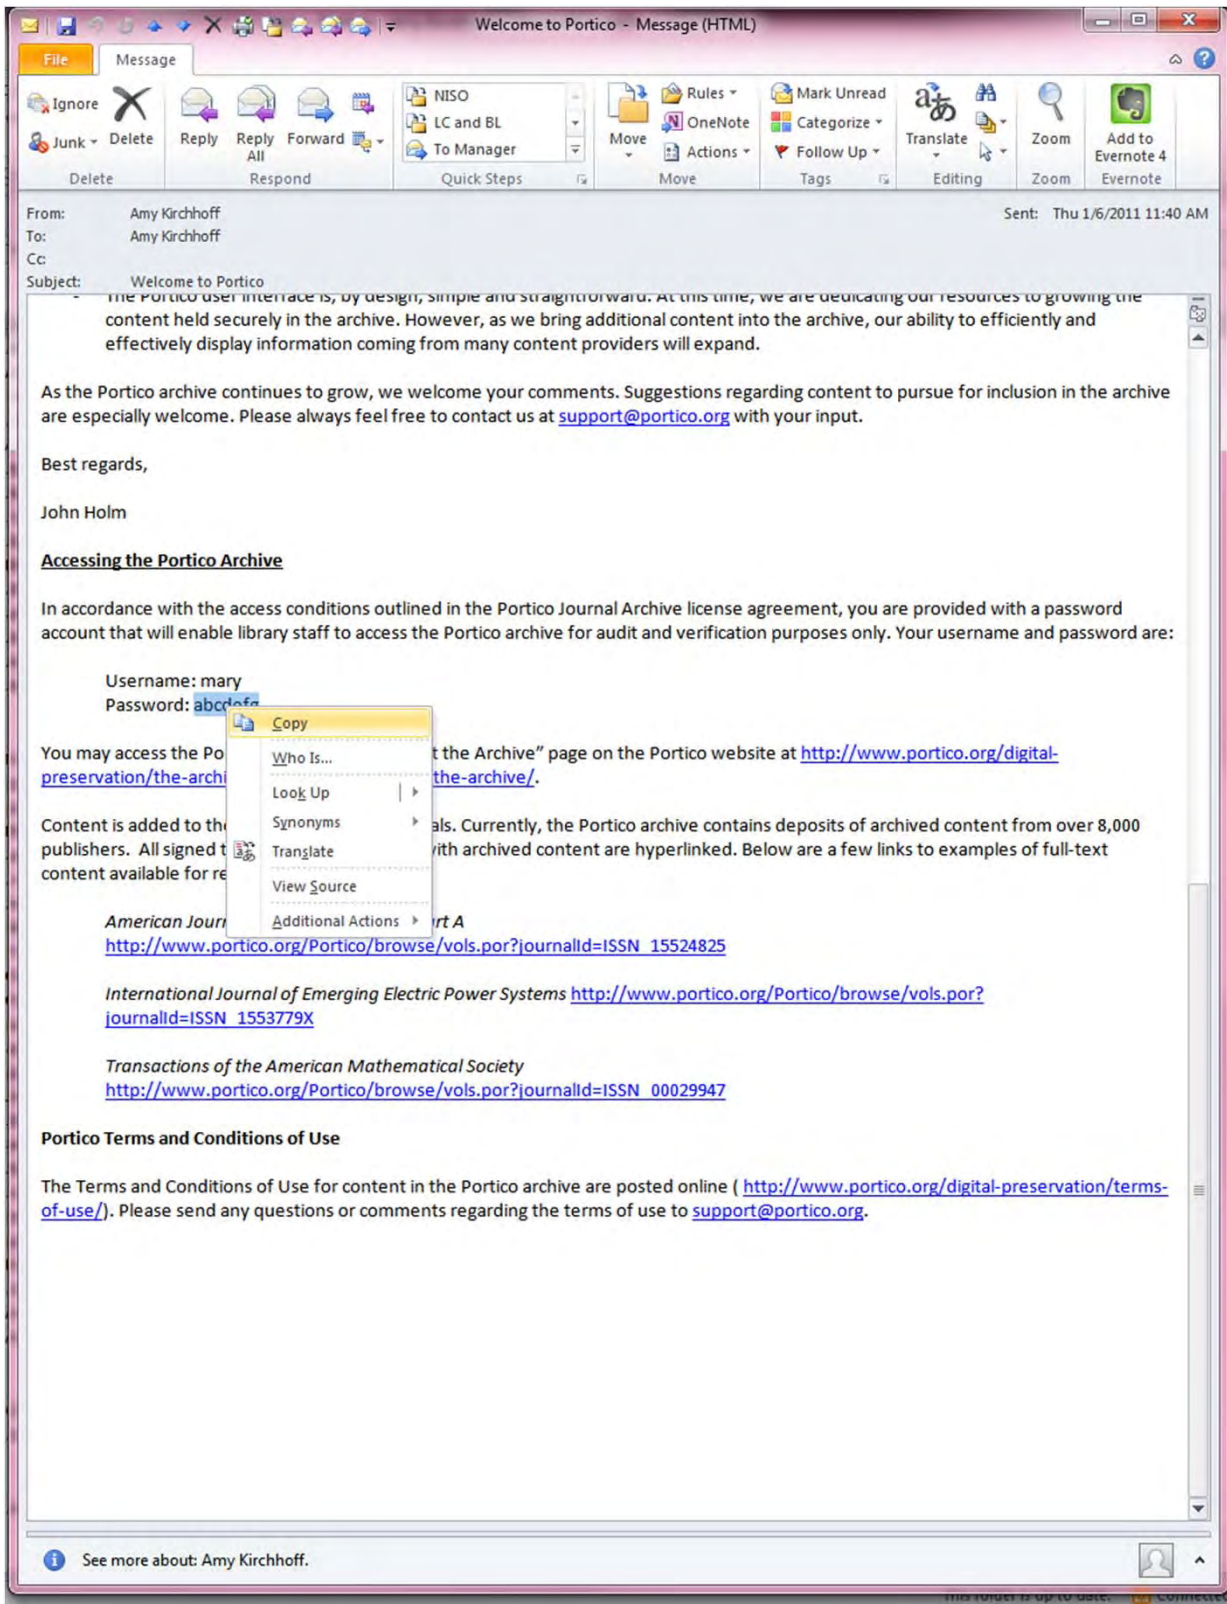

- Mary is a Resource Librarian at a large university library.
- Unbeknownst to Mary, her library has just begun participating in Portico and Portico's business contact at the library named Mary as one of the 4 institutional Portico auditors. Mary receives a welcome email from Portico informing her that she now has auditor access.
- Mary has never used Portico before. She's heard of it, and after a brief online search, her memory is refreshed as to Portico's purpose.
- Mary has worked at this library for more than 10 years, but auditing content is relatively new to her. She's not exactly sure what she is supposed to do, but wants to review at least one preserved article and book.

**What is Digital Preservation?**

Digital preservation is the series of management policies and activities necessary to ensure the enduring usability, authenticity, discoverability and accessibility of content over the very long term.

## Audit Journal Content

The following list represents journal titles to be archived in Portico. Journal content is continually being added to the archive at regular intervals and those titles with content preserved in the Archive will be linked below. Audit privileges to articles in the Portico archive is available only to participating libraries and publishers in accordance with the terms of their respective license agreements.
